

SUPPLIES ↓

- Different colors of construction paper
- Pencil
- Scissors
- Glue
- Blank Greeting Card (black preferred)
- Stencils of Turtle and Bird

DIRECTIONS ↓

- 1 Print and cut out the provided stencil (or draw your own design).
- 2 On one colored sheet of construction paper, trace or draw your design. Make sure it's no larger than about two-thirds the size of the blank card. Now cut it out.
- 3 Glue it onto another sheet of construction paper in a different color. Cut around the original design, leaving a border.
- 4 Now repeat that step, using another color. Keep going until you've had enough—or you reach seven layers.
- 5 Add finishing touches like an eye, a stripe or a feather to the design.
